1. Product And Company Identification

Product Name: STP® High Mileage Transmission Stop Slip + Leak Repair

Responsible Party: STP Products Manufacturing Company
44 Old Ridgebury Road
Suite 300
Danbury, CT 06810

Information Phone Number: +1 203-205-2900
Emergency Phone Number:
For Medical Emergencies, call 1-866-949-6465 / +1 303-389-1332 (Outside US and Canada)
For Transportation Emergencies, call 1-800-424-9300 (Chemtrec) +1-703-527-3887 for Outside US and Canada (call collect)

SDS Date of Preparation: 01/30/2018
Product Use and Uses Advised Against: Automotive maintenance product – For consumer and professional use

2. Hazards Identification

Note: This product is a consumer product and is labeled in accordance with the Consumer Product Safety Commission regulations and not OSHA regulations. The requirements for the labeling of consumer products take precedence over OSHA labeling so the actual product label will differ from the OSHA information shown below.

GHS Classification:

<table>
<thead>
<tr>
<th>Physical:</th>
<th>Health:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not Hazardous</td>
<td>Toxic to Reproduction Category 1B</td>
</tr>
</tbody>
</table>

GHS Label Elements:

Danger!

**Statements of Hazard**
May damage fertility.

**Precautionary Statements**

**Response**
IF exposed or concerned: Get medical attention.

**Prevention**
Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.

**Storage**
Store locked up.

**Disposal**
Dispose of contents and container in accordance with local and national regulations.

Hazard not otherwise specified: None
3. Composition/Information on Ingredients

<table>
<thead>
<tr>

</tbody>
</table>

The specific identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. First Aid Measures

**Inhalation**: If symptoms of exposure develop, remove to fresh air. If breathing becomes difficult, administer oxygen. If breathing has stopped, administer artificial respiration. Get medical attention if symptoms appear and persist.

**Skin Contact**: Wash exposed skin with soap and water. If skin irritation or redness develops, get medical attention.

**Eye Contact**: Flush eyes with large amounts of water. If irritation or other symptoms persist, get medical attention.

**Ingestion**: Do not induce vomiting unless directed to by doctor or physician. If the victim is fully conscious, have them drink a glass of water. Get medical assistance by calling a doctor or poison center. Never give anything by mouth to a person who is unconscious or drowsy.

**Most Important Symptoms**: May cause mild skin irritation. Inhalation of mists or vapors may cause mild upper respiratory tract irritation. Ingestion may cause gastrointestinal effects such as nausea, vomiting and diarrhea and central nervous system effects. Contains materials that may produce an adverse effect on fertility.

**Indication of Immediate Medical Attention/Special Treatment**: Immediate medical attention should not be required.

5. Firefighting Measures

**Suitable (and Unsuitable) Extinguishing Media**: Use water fog, foam, carbon dioxide or dry chemical. Cool fire exposed containers with water.

**Specific Hazards Arising from the Chemical**: This product is not classified as flammable or combustible, but will burn under fire conditions. Closed containers may rupture if exposed to extreme heat. Burning may produce carbon monoxide and carbon dioxide, nitrogen oxides, and hydrocarbons.

**Special Protective Equipment and Precautions for Fire-fighters**: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing for fires in areas where chemicals are used or stored.

6. Accidental Release Measures

**Personal Precautions, Protective Equipment, and Emergency Procedures**: Caution – slip hazard. Eliminate all ignition sources and ventilate the area. Wear appropriate protective equipment.
Environmental Precautions: Prevent entry in storm sewers and waterways. Report spill as required by local and national regulations. Notify the National Response Center if a spill of any amount enters navigable waters, the contiguous zone, or adjoining shorelines.

Methods for Containment and Clean-Up: Stop spill at the source if it is safe to do so. Absorb with an inert material. Collect into a suitable container for disposal. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard.

7. Handling and Storage

Precautions for Safe Handling: Avoid contact with eyes. Avoid prolonged contact with skin and clothing. Wash hands after use. Keep out of the reach of children.

Conditions for Safe Storage, Including any Incompatibilities: No special storage required.

8. Exposure Controls / Personal Protection

Exposure Guidelines:

<table>
<thead>
<tr>
<th>CHEMICAL</th>
<th>EXPOSURE LIMIT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Petroleum Distillates, Hydrotreated heavy paraffinic</td>
<td>5 mg/m³ TWA OSHA PEL&lt;br&gt;5 mg/m³ TWA ACGIH TLV (Inhalable)</td>
</tr>
<tr>
<td>Mineral Oil</td>
<td>5 mg/m³ TWA OSHA PEL (As mist)&lt;br&gt;5 mg/m³ TWA ACGIH TLV (Inhalable)</td>
</tr>
<tr>
<td>Petroleum Distillates</td>
<td>500 ppm TWA OSHA PEL</td>
</tr>
<tr>
<td>Phenol, 4-dodecyl-</td>
<td>None Established</td>
</tr>
</tbody>
</table>

Engineering Controls: General ventilation should be adequate for all normal use. For operations where the TLV may be exceeded, forced ventilation such as local exhaust may be needed to maintain exposures below applicable limits.

Personal Protective Equipment

Respiratory Protection: None under normal use conditions. For operations where the TLV is exceeded, a NIOSH approved respirator with an organic vapor cartridge and a dust/mist prefilter or supplied air respirator is recommended. Equipment selection depends on contaminant type and concentration. Select in accordance with 29 CFR 1910.134 and good industrial hygiene practice. For firefighting, use self-contained breathing apparatus.

Gloves: Impervious gloves such as neoprene or nitrile are recommended if needed to avoid prolonged or repeated skin contact

Eye Protection: Safety glasses or goggles are recommended if eye contact is possible.

Other Protective Equipment/Clothing: Appropriate protective clothing as needed to prevent prolonged/ repeated skin contact.

9. Physical and Chemical Properties

Appearance and Odor: Liquid with a petroleum-like odor.

| Physical State: Liquid | Odor Threshold: Not available |
| pH: Not applicable | Specific Gravity: Not determined |
10. Stability and Reactivity

**Reactivity:** Not normally reactive
**Chemical Stability:** Stable.
**Possibility of Hazardous Reactions:** None known
**Conditions To Avoid:** None known
**Incompatible Materials:** Strong oxidizing agents.
**Hazardous Decomposition Products:** Burning may produce carbon monoxide and carbon dioxide, nitrogen oxides, and hydrocarbons.

11. Toxicological Information

**POTENTIAL HEALTH EFFECTS:**

**Acute Hazards:**
**Inhalation:** Inhalation of mists or vapors generated at elevated temperatures may cause upper respiratory tract irritation.

**Skin Contact:** May cause mild irritation. Prolonged or repeated contact may cause defatting and drying of the skin and dermatitis.

**Eye Contact:** Direct contact may cause mild eye irritation.

**Ingestion:** Ingestion may cause gastrointestinal effects such as nausea, vomiting and diarrhea and central nervous system effects with symptoms of drowsiness, headache, dizziness and unconsciousness.

**Chronic Effects:** Prolonged or repeated overexposure may cause adverse effects on the blood, kidneys, liver, and heart. Contains 4-dodecyl-phenol which may produce an adverse effect on fertility.

**Carcinogenicity Listing:** None of the components is listed as a carcinogen or potential carcinogen by IARC, NTP, ACGIH or OSHA.

**Acute Toxicity Values:**

No data available for product.
**Petroleum Distillates, Hydrotreated heavy paraffinic:**
- LD50 Oral Rat: >15,000 mg/kg
- LD50 Skin Rabbit: >5,000 mg/kg
- LC50 Inhalation Rat: >5 mg/L/4 hr.

**Mineral Oil:**
- LD50 Rat oral > 5,000 mg/kg
- LD50 Rabbit dermal > 2,000 mg/kg
12. Ecological Information

Ecotoxicity:
Petroleum Distillates, Hydrotreated heavy paraffinic:
   LL50 Pimephales promelas (fathead minnow) >100 mg/l/96 hr.
Mineral Oil: NOEL Oncorhynchus mykiss >= 100 mg/L/96 hr.
   NOEL Daphnia magna >= 100 mg/L/96 hr.

Persistence and Degradability:
Petroleum Distillates, Hydrotreated heavy paraffinic: Not readily biodegradable.

Bio accumulative Potential: No data available

Mobility in Soil: No data available

Other Adverse Effects: No data available

13. Disposal Considerations

Dispose of in accordance with all local, state/provincial and federal regulations. Offer empty containers for recycling.

14. Transport Information

DOT Hazardous Materials Description: Not Regulated

Canadian TDG Hazardous Materials Description: Not Regulated

IMDG Dangerous Goods Description: Not Regulated

15. Regulatory Information

United States:

EPA TSCA INVENTORY: All of the components of this material are listed on the Toxic Substances Control Act (TSCA) Chemical Substances Inventory.

CERCLA Section 103: This product has no RQ, however, oil spills must be reported to the National Response Center. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

SARA Hazard Category (311/312): Classified under OSHA Hazcom 2012 GHS as per Section 2 of this SDS.
SARA 313: This product contains the following chemicals subject to Annual Release Reporting Requirements under SARA Title III, Section 313 (40 CFR 372): None

Canada:

Canadian Environmental Protection Act: All of the ingredients are listed on the Canadian DSL.
